Modular Mobile Device

Patent Acquisition Opportunity

The information in this package is provided for the sole purpose of supporting the independent evaluation of these patents by prospective buyers, and does not constitute legal opinion or representation. Any discussion of the potential use of the patented inventions by particular products is for illustration purposes only and is not intended to be, nor should they be construed as, notice of, or any form of accusation of, infringement of any of the indicated patents by any products. In addition, the materials provided by GTT Group are copyrighted material and are intended for use by the receiving party solely for their use in determining whether to purchase the patents offered for sale by GTT Group and their participation in the sales process run by GTT Group.

Modular Mobile Device Patent Portfolio

US Patents

Two Issued Patents

Technology Areas

The portfolio generally relates to mobile phones, particularly smartphones, and associated peripherals.

Priority Date

The priority date for the portfolio is September 25, 2003.

Expiration Date

The expected expiration for the portfolio is August 21, 2024.

Bidding Deadline

December 7, 2011

Evidence of Use & Value

GTT Group will provide normalized claim charts and value guidance under NDA.

Acquisition Opportunity Summary

- The Modular Mobile Device Patent Portfolio relates to mobile phones and related peripherals. Although the peripherals do not have internet functionality by themselves, they can be connected to the mobile phone such that the peripherals increase the internet functionality of the phone/peripheral system. A few examples of such peripherals include speaker docks, credit card readers and GPS units.

Commercial Impact

- Modular mobile phones are mobile phones that may be used as a stand-alone mobile phone device or may be connected to peripheral devices to provide wireless functionality for the peripheral device. This technology is particularly desirable for several reasons:
 - Users can give regular peripheral devices access to wireless networks, which greatly expands their capabilities (i.e. connecting a phone to a speaker dock to listen to online streaming radio).
 - Peripheral devices will not require the ability to independently connect to a wireless network so their costs will remain lower.
 - Users that wish to frequently upgrade their phone with new features can do so without incurring the cost of having to purchase a completely new wireless device.

Transaction Structure

- The Seller prefers an all-cash transaction. Seller has preferred purchase agreement, which can be provided prior to making offer.

Bidding Deadline

- All offers for the portfolio should be made in writing by December 7, 2011, or earlier.

Submitting an Offer

- Offers should be submitted in writing from an authorized party stating the price offered and any material conditions to closing.

Pricing

- No price floor has been set. Seller reserves the right to accept any offer and refuse any and all offers in its sole and arbitrary discretion. GTT Group is able to provide value guidance to qualified interested parties.

Non-Notice

- Seller has agreed that the information provided to prospective purchasers throughout this sales campaign will not be used in any legal or administrative proceeding directed to enforcement of any patent associated with the Modular Mobile Device Patent Portfolio.

Evidence of Use & Value Guidance

- GTT Group is prepared to discuss evidence of use and present claim charts to interested parties under Seller approved non-disclosure agreement.
- GTT Group is prepared to discuss value and provide guidance to interested parties under Seller approved non-disclosure agreement .
